Bernheim Under Threat Contact List

If you would like to voice your opinion about the proposed natural gas pipeline or the Regional I-65/I-71 Connector, a highway bypass around Louisville, which would cross Bernheim's conservation lands, leading to the destruction of bat habitat, the loss of a population of the Bluff Vertigo, a globally imperiled snail, and the degradation of pristine waters, you can write, call, or email the following contacts. Suggested language and downloadable letters in Word format are available at forestunderthreat.com in the advocacy toolkit.

Pipeline Project
